LIST THE PROJECT GOAL(S):	9.1 Improving technology support/IT services End-users will report having access to well-functioning technology and reliable connectivity for teaching; SY17-18: 60%; SY18-19: 70%; SY19-20: 80%
	9.2 Expanding technology tools/resources for schools/teachers/students (total of 21 school labs and 18 library learning centers across 3 years) June 2018: Increase access to technology by creating computer labs in 7 schools (did not receive SY 2016-2017); 45% of teachers reporting use of labs June 2019: Increase by 7 schools with 50% teachers report using the labs June 2020: Increase access to technology by 7 schools each year with 60% teachers reporting use of labs

	<p>Increase access to technology for teaching and learning by creating library learning centers in 6 school libraries SY17-18; and six more annually SY18-19 and SY19-20 that did not have learning centers in the prior year (6 more).</p> <p>9.3 <u>Enhancing teacher skills in integrating technology</u></p> <p>Fewer teacher will rate themselves as beginning technology users: SY17-18: 45%; SY18-19: 40%; SY19-20: 35% Add to on-demand professional learning library related to technology including curriculum resources for administrators, teachers, and staff.</p>
LIST OBJECTIVE(S):	<p>9.1 Improving Technology Support/Delivery of IT Services ANNUAL: Teachers/staff report timely, high quality and effective services; SY17-18: 75%; SY18-19: 80%; SY19-20: 80%. Provide annual service and maintenance for 1500 Laptops /computers (3-5yrs old). Reduce Wi-Fi /Connectivity tickets by 15% from 2016-17 helpdesk and reduce by 10% in year 2 and 3.</p> <p>9.2 Expanding Technology Tools and Resources for School, Teacher, and Student Use Year 3: 10% increase each year in students reporting use of technology in courses taught by teachers receiving EETT training.</p> <p>9.3 Enhancing Teacher Skills and Integrating Technology in Teaching and Learning Year 3: 75% of students of teachers receiving training will indicate they see technology used by the teacher 100% of teachers with interactive whiteboards and who have completed level 2 training will submit at least one flip-chart unit for district-wide use 85% of teachers participating in online learning courses will complete at least one online course module By June 2020, 100% of teachers will receive updated GDOE scope and sequence for technology aligned to ISTE Standards and at least 400 will have access to archived webinars (one for each standard). 100% of principals will receive training and access to LDS reports and 50% access regularly</p> <p>9.4 Implementing a Fully Automated Library System in all Public Schools By end of 2020, 100 % librarians use automated library system to generate circulation reports for principals and 25% have developed school library webpages populating them for students and teachers along with monthly themes. Modified: 3 Librarians will create maker spaces in at least three schools (1 elem, 1 middle, 1 high school) by September 2020 Modified: At least 100 teachers annually access PowerTeacher Online.</p>

If ongoing, indicate how much was accomplished. If delayed, state the reason why. • 9.1a On-going: Annual Contract for re-imaging laptops 3 years or older purchased through EETT. Contract generated and ready to begin if once older assets are eliminated GDOE can meet the minimum. • 9.1b Delayed: Annual Supplemental Broadband Expansion 400-600mb/sec Broadband is provided to supplement the district's internet bandwidth for projects using technology to be successful. • 9.1c On-going: Procurement of computer-repair/admin supplies, and PEC conference supplies for presenters, video conferencing software for hosting virtual meetings. No purchases for PEC to date. Support subscriptions have been renewed for the year. • 9.1d Delayed: [NEW] Retro-fit of room to be used as Computer Lab. Soliciting retrofit needs for the 40 computer labs established. Once the scope is identified, project staff will solicit appropriate vendor for cost estimate • 9.1e Ongoing: Provision of technology support to the district 	<ul style="list-style-type: none"> ➤ In five or less brief sentence(s), describe the work accomplished for each activity group implemented during the period. ➤ List evidence that activity took place, and include copy of proof as attachment(s). (Example: <i>Sign-in sheets for workshop, training or professional development, Agenda, and other evidence such as travel log, PD log, budget mod, or personnel log of changes/updates</i>) • 9.1a Since the application, projects were asked to remove older assets from inventory. Email correspondence sent to all Consolidated Grant Programs offering the technology and all declined. Special Ed was then offered the equipment and believe they will have need. A majority of the equipment to be reimaged will now be turned over. Project needs to re-evaluate the need for the reimaging and if the contract can be met in terms of quantity. [Email back-up 9.1a evidence to offer equipment to other Federally Funded Projects] • 9.1b Awaiting decision from Data Processing Manager whether supplemental services are to be continued or not. • 9.1c Nothing has been purchased for Pacific Ed Conference 2020. Subscription services for tech support (Goverlan) and Mi-Fi services have been purchased. • 9.1d Project working with schools to determine additional electrical needs for new designated computer labs. Google Form developed to be used to solicit specific needs of each lab location. • 9.1e 4 technicians provide ongoing support to all school sites and FSAIS Tech Office.

Request to meet to discuss EETT Obsolete technology being offered to Special Ed.

Hafa Adai and Happy Friday!

I'm following up on the offer to Special Ed (as another federally funded program) if you have need of any of the EETT obsolete equipment.

As I spoke to Terese, the offer is not directly to the schools who contact me. The assets would be turned over to Special Ed, and then Special Ed would in turn provide the assets to the school programs interested in the technology. Can we meet sometime next week to discuss? We need to complete this process. EETT will not be able to order any new equipment under the Consolidated Grant if we do not remove the older assets from inventory per Mr. Santos. Thank you.

Terese- Please hold on announcements- I think there is some confusion how the equipment is to be distributed as offered to Special Education.

I'm getting several direct requests from principals. EETT cannot give equipment to schools. It is my understanding in this process, that the offer is to Special Education as Federal Program. Special Ed would assess the need and determine if "the program" has need for the technology. Then, Special Ed would make the request to EETT or all the assets.... and then distribute throughout the program (Special Ed) in the district. This would not be a transfer from EETT to various schools.

Some detail on equipment. The promethean boards are in classrooms mounted throughout the district. There is no more warranty or service for the boards. Additionally, the cost to remove boards and have them re-mounted would be at the cost of Special Ed (EETT can not move them). I'm not sure moving the boards are in anyone's interest given the cost.

In terms of the laptops and mobile carts, while they will be functioning, there will not be support should they need any FSAIS repair. Likely as the devices go, they will be surveyed.
Happy to talk to you and Yolanda how to proceed.

Good morning Neil,

I apologize for any confusion. The information was relayed to me and I was asked to share the information with the participants in the Bookshare session.

I will speak to Mrs. Gabriel to determine how she wants to handle requests from schools. Thanks for your email. Happy Thanksgiving!

Project Leads

Per the guidance of FPD, I am inquiring with all other CG Projects if you would like to accept and of the technology assets below.

These units are currently assigned to school locations and other district or school site employees involved in project activities. I would like to document the acceptance or refusal of the various projects, as EETT is actively trying to procure replacement units as well as purchase new equipment in our CG 2019 approved application.

- 766 Acer Travel Mate Laptops
- 66 Mobile Carts
- 356 AV Storage carts on wheels
- 375 Document Cameras (Elmo and Actiview Brand)
- 3753 Lenovo Thinkpad L430's (includes 1113 Teacher Laptops)
- 11 Lenovo Laptops with Docking Stations
- 151 Promethean Boards (not touch, mounted on walls)
- Promethean Accessories (82 activexpressions and 68 activote learner response systems)
- Server racks, servers, storage

As discussed with Mr. Santos, we would ultimately like to offer the units to the respective schools sites; however, we will need to ensure other federally funded project/programs are not in need of the equipment. Please reply via this email acknowledging receipt of email and whether you are, or are not interested in the units.

Thank you for your most speedy response.

This is for the Acer or the Lenovos?

Eloise says the desktops were funded under a Perkins Grant in 2014. No software, just hardware. If we can pull the licenses off of 19 soon to be surveyed computers, it would alleviate the need to buy new licenses.

Hafa Adai Leah Beth,

I believe we had discussed prior that College Pathway would ultimately decline EETT's offer for equipment that is 4 or more years past its date of acquisition. We had discussed that when the time comes for your project to procure new equipment, you would be in the same situation as Neil and ultimately need to either transfer or survey the property you received from them.

Kindly confirm that you are declining the offer for the outdated technology equipment for FPD and EETT record.

Thank you,

Hi Leon, please see email below:

Per the guidance of FPD, I am inquiring with all other CG Projects if you would like to accept and of the technology assets below.

These units are currently assigned to school locations and other district or school site employees involved in project activities. I would like to document the acceptance or refusal of the various projects, as EETT is actively trying to procure replacement units as well as purchase new equipment in our CG 2019 approved application.

- 766 Acer Travel Mate Laptops
- 66 Mobile Carts
- 356 AV Storage carts on wheels
- 375 Document Cameras (Elmo and Actiview Brand)
- 3753 Lenovo Thinkpad L430's (includes 1113 Teacher Laptops)
- 11 Lenovo Laptops with Docking Stations
- 151 Promethean Boards (not touch, mounted on walls)
- Promethean Accessories (82 activexpressions and 68 activote learner response systems)
- Server racks, servers, storage

As discussed with Mr. Santos, we would ultimately like to offer the units to the respective schools sites; however, we will need to ensure other federally funded project/programs are not in need of the equipment. Please reply via this email acknowledging receipt of email and whether you are, or are not interested in the units.

Hafa Adai!

All CG projects have now responded. They have no need for these obsolete devices. Please see email below about assets EETT will transfer to local.

Does special education have any need for any equipment?

All are out of warranty. Additionally they will not be able to be maintained by the federally funded technicians.

Thank you

*9.1d Retrofit of
Computer Retrof.*

"Retrofit Needs" for Computer Labs provided by EETT

Enhancing Education through Technology was approved in this year's application to minimally retrofit computer lab rooms to ensure proper electrical and connectivity for labs to be used and successfully provide access to more classes of students in schools. All schools now participate in Computer Lab activity for EETT. Please let us know if there are needs in the designated Computer Lab Room we can assist with such as electrical outlets for charging and locks on doors if necessary. Obviously leased schools will need to seek permission and it is the school's responsibility to do so. Thank you in advance.

Hi Neil,

Attached is EETT's *initial* 1st Quarter Report, with some handwritten comments/feedback (in red), relative to the use of the revised reporting template. The comments had to be done manually for the sake of time.

Kindly revise accordingly. I can provide you my copy if it would make it easier. If there are questions on any of the comments/changes, please let me know and we can discuss.

Data validation will follow soon after the revision.

Thanks,
Ana

Hi Neil and Cellini,

I have reviewed the quarterly report and am kindly requesting for a few clarifications to help me better understand EETT. Could you please explain the following:

for 9.3f tracking and renewal of online professional learning for well-rounded educator: "pending amended FY19 CGA to renew subscription" I know that there is \$7,403.23 budgeted for this activity. Would you need the budgeted \$7403.23 plus the \$4,435.67 in order to move forward?

Same question for 9.4c, Kits, supplies, equipment, 3D printers, books to implement makerspaces: "awaiting availability of 2019 CG Funds to purchase." There are budgeted amounts in FY19 for these activities. Would you need the budgeted amount plus the amount in the fy18 carryover in order to proceed?

9.3e Longitudinal Data System Annual Support: "need to meet with administrative oversight of the LDS and expectations of principals." Could you please let me know what type of information is needed from the principals? and should these meetings with principals be included in Part 3 of the quarterly report on "What Activities will the project implement next quarter"?

thanks for your time and patience

Chris

Good Morning!

See response in blue:

for 9.3f tracking and renewal of online professional learning for well-rounded educator: "pending amended FY19 CGA to renew subscription" I know that there is \$7,403.23 budgeted for this activity. Would you need the budgeted \$7403.23 plus the \$4,435.67 in order to move forward? Yes. Because there was an increase in licenses, we held back on procuring renewal. Having converted a PO with the original approved amount would have required an amendment to increase however, amendment would have exceeded 10% which would be non-compliant with procurement regulations. Since we still had access to these online modules, we continued to use them and waited on carry-over approval to key in a new requisition utilizing FY19 and 18carryover funds.

Same question for 9.4c, Kits, supplies, equipment, 3D printers, books to implement makerspaces: "awaiting availability of 2019 CG Funds to purchase." There are budgeted amounts in FY19 for these activities. Would you need the budgeted amount plus the amount in the fy18 carryover in order to proceed? Yes. To get the best bang for our buck considering the cost per 3D Printer, we thought it best we wait for the approval of the amended application inclusive of the carryover so an IFB can be drafted to procure more at a lower cost- this IFB will include all projected quantity from all CG projects.

9.3e Longitudinal Data System Annual Support: "need to meet with administrative oversight of the LDS and expectations of principals." Could you please let me know what type of information is needed from the principals? and should these meetings with principals be included in Part 3 of the quarterly report on "What Activities will the project implement next quarter"? Per Neil: LDS is funded by EETT and used for a variety of divisions:

Finance
Discipline
HR

Over the years there has been a long history when LDS was purchased and RP&E administrator was involved. Munis also had a Longitudinal Data System called Tyler Pulse the district requested. Originally it was in the State Application and I was ghost writer/monitor. Then it was moved to EETT by request of Supt. RPE was in the application and did not want to be involved and had never been addressed.

EETT worked extensively with Student Support Services to customize and make available all our discipline data. This is used by school personnel, principals, DAT Teams and important for monitoring discipline in the schools. A former employee Jackie Mesa (under Taling) used to oversee Tyler Pulse and ensure access and training. When she left training ceased.

The idea was to also have all our student assessment data imported into Tyler Pulse for access and looking at Longitudinal Trends. I don't think that has been happening. I'd really like Deputy of Curriculum, Deputy ESCL and Deputy of Finance to discuss with supt and RPE;

What is the status now?

Who is the access and contact for Pulse Access and ensuring Principals know how to navigate?

Will we be looking at starting to upload assessment data?

Where we want to go next?
