Please see below response to questions submitted by Prospective Bidder(s):

SBS Guam

1. I am not familiar with the bidding process. Is there a part where we need to sign for that? Could you please let me which pages should be signed and sent to you?
GDOE Response: Please refer to Section 3 and Section 4 of the IFB for General Instructions on how to bid on the IFB and Terms of the IFB.

Xerox Corporation

2. Section 1.1 states "A non-refundable fee of \$10.00 (cash only) is required upon pick up."
 - a. Is the \$10 fee required for bid submittals or is the fee just for the pickup of a copy of the bid package (if not downloaded)?
GDOE Response: \$10.00 Fee is required for Hard Copy pick up only. Electronic pick up via website does not require a \$10 fee.
3. Section 2.3.7 mentions supplies.
 - a. Are all device supplies to be included in the lease including staples and except paper?
GDOE Response: Yes.
4. Section 3.1.16 speaks to bond requirements and mentions a performance bond.
 - a. In addition to the bid guarantee or bid bond, is a performance bond a requirement for this bid? If so, will a performance bond form be provided prior to or after award?
GDOE Response: A Performance Bond is not a requirement for this Bid. However, if awarded, the Bid Guarantee will be held until such time that services are completed satisfactorily.
5. Section 2.2 Purpose indicates GDOEs objective to have a system that would "Provide proactive monitoring of print devices, proactive consumables management and if possible automated ordering."
 - a. Please describe what is meant by "proactive"? Do you mean that the vendor should be actively monitoring all covered devices so that supplies are proactively delivered without intervention from the end user?
GDOE Response: Vendor does NOT need to be actively monitoring.
 - b. Is proactive monitoring of print devices with the use of monitoring software by the vendor a requirement of the bid?
GDOE Response: Yes.
 - c. And if software is required, is the vendor expected to provide the software AND hardware on which the software resides?
GDOE Response: Please refer to Section 2.3.17.1 of the IFB. Additionally, the software should be licensed and belong to Guam Department of Education.
6. Section 2.3.1 Minimum requirement for bidders states that "vendor must provide a list of local clients which the vendor manages at least one hundred (100) units or greater. It's not required that all one hundred (100) units be managed under the same contract or for the same client. The following information must be included: Reference information name, address, name of contact person, contact number, contact email address, and brief project scope — including project length and requested services."
 - a. Please confirm that the reference list of customers must have an aggregate total of 100 units currently under management by the responding vendor.

GDOE Response: List of customers does NOT need to be currently under management but has experience with 100 units. The requirement is for GDOE to understand if a vendor has had experience with providing 100 or more units within a given period.

- b. What qualifies as an acceptable reference? Will the reference need to have received hardware and services from the responding vendor that is similar in nature as to what is being requested in the bid?

GDOE Response: An acceptable reference is one that has been provided by the responding vendor that has been able to provide hardware and services.

- c. Will GDOE call each of the cited references to confirm receiving similar services and poll their satisfaction of these services by the vendor?

GDOE Response: No.

- d. If a provided reference is called by GDOE and the reference indicates that the level of service provided by the vendor is NOT satisfactory and/or the total aggregate number of devices under management is less than 100, will this be grounds to disqualify the vendor?

GDOE Response: No.

7. Section 2.3.8 Network Device Management and Monitor tool for all proposed devices states "The successful bidder shall provide a "turn-key" (software and hardware fully configured and ready to use) solution for monitoring and management of proposed devices. This solution shall be a comprehensive network management tool to monitor, maintain, and update all devices locally and remotely (not physically on the device or in a different location within the GDOE network).

- a. Will GDOE be providing any hardware (eg. servers, PCs, etc.) for software solution/tools that may be installed?

GDOE Response: No.

8. Section 2.3.10 Technical Support

- a. Will GDOE have network drops for all locations where the machines will be installed?

GDOE Response: Most, is NOT all.

- b. Will all devices be connected to the same network?

GDOE Response: Most devices are connected to GDOE network except for a device at DYA location.

- c. How many network domains does GDOE have?

GDOE Response: 1 Domain.

- d. How many PC and Mac workstations does GDOE have?

GDOE Response: Estimate of about 3,000 PCs and about 40 Macs

- e. How many users are expected to use the requested machines for copying?

GDOE Response: Estimated about 100 total users or more are expected to use the machines for copying.

- f. How many users are expected to use the requested machines for printing?

GDOE Response: Potentially about 3,000s users or more are expected to use the machines for printing.

9. With regard to the Bid Form section, there is limited space to provide a detailed response to some of the sections on the bid forms.

- a. Can responding vendors provide additional pages if needed to explain their respective offers?

GDOE Response: Yes, you may provided additional pages to supplement the bid form.

10. With regard to Section 2.3.1.6 Multifunction Device Specifications

- a. Are the specifications listed in Section 2.3.1.6 "minimum" specification requirements that must be met for a "responsive and responsible" bid offer/ response notwithstanding any future changes and/or additions to the requirements in the course of the bid timeline?

GDOE Response: GDOE is not clear with the section being referenced for 2.3.1.6. Assuming that this is in reference to 2.3.16, the bidders must meet the minimum specifications in this section in order to be deemed responsive. Please refer to Section 3.2.2 on additional details regarding Determination of Responsibility and Responsiveness.

- b. Please confirm the type of print technology required for the multifunction devices Laser and/or led printing is proven technology and is the industry standard. Are offered multifunction devices required to print using laser/led print technology (I.e. laser and/or led printing)?

GDOE Response: GDOE is requesting laser type of print technology. No Ink-jet type of printing is accepted.

- c. MFD 1 Section 2.3.16.14. indicates "Top Speed High Volume Color Multi-Function Device (MFD 1); Section 2.3.16.14.1 Indicates "Monochrome/Black Copier, Network Printer, Network Scanner"; Section 2.3.16.14.2. indicates "At minimum 105 pages per minute color Bid Form page 2, MFD1 indicates MFD 1: Top Speed High Color. i. High Volume Multi-function devices at speeds of 100 ppm and greater are considered "production units" and are almost exclusively monochrome (black and white only) in the industry. I.e. monochrome (black and white only) capability is the industry standard for production units. Xerox humbly requests that the ability to print in color (i.e. color capability) be made optional and that high speed monochrome (black and white only) production device models be acceptable in response to MFD 1.

GDOE Response: Update, GDOE is requesting for Color. GDOE is NOT requesting for a MonoChrome/Black only copier.

- d. Section 2.3.16.15.19 requires 110v electrical. High speed multifunction units typically require higher voltages for operation. Xerox humbly requests that the electrical requirements for MFD 1 be inclusive of 220v (i.e an electrical requirement of 110v or 220v).

GDOE Response: MFD 1 electrical requirement is changed to 220v. These locations only have 220v.

- e. MFD 2 Section 2.3.16.15.18.requires For 1 devices - Walkup Faxing, LAN Faxing, and Network Faxing. LAN Faxing is the ability to send faxes directly from a workstation via a print or fax driver installed on a workstation. Can you please clarify what is Network Faxing? Is it the ability to forward incoming faxes to email. a PC and/ or a file server on the network?

GDOE Response: LAN Faxing and Network Faxing is NO longer a requirement.

- f. MFD 3 Section 2.3.16.16.17 requires For 1 device - Walkup Faxing, LAN Faxing, and Network Faxing and Section 2.3.16.16.18. requires For 1 device - Wifi capability. Page 1 of the Bid Form only lists "Item 7 MFD 3 - Med Vol (color) with Wifi" and Items 5 & 6 are identical except for the lease terms. Is Item 6 on the bid form supposed to have the require fax capability? Or is there supposed to be another line item to reflect the fax capability? I.e. "MFD 3 - Med Vol (color) with Fax"?

GDOE Response: Please refer to Amendment 3, Attachment C – Amended Bid Form 1.

11. Section 2.3.17 Calls for an Enterprise Print Management Solution

- a. Is the offered Enterprise Print Management Solution to be supported and include all software version upgrades, both major and minor, for the duration of the lease?

GDOE Response: Yes.

- b. Is the offered Enterprise Print Management Solution to be supported and include hardware warranty for the duration of the lease?

GDOE Response: Yes.

- c. Is the offered Enterprise Print Management Solution to include implementation and customized configuration support for both software and hardware?

GDOE Response: Yes.

- d. Is the offered Enterprise Print Management Solution to include automated deployment and management of multiple print queues?

GDOE Response: Automated deployment and management of multiple print queue is not a requirement.

- e. How many total users will the Enterprise Print Management Solution need to support?

GDOE Response: Estimated 3,500 users

- f. Is the print management solution supposed to cover all 143 devices AND any additional future units if additional units are added to the lease?

GDOE Response: Solution should cover all proposed devices. Any future devices will be handled at the time of purchase/change on a case-by-case basis.

12. Section 3.2.14 Physical Liability

- a. When does GDOE require certificate(s) of liability insurance? After award?

GDOE Response: If required and requested by GDOE, the winning vendor should be able to provide certification of liability insurance after award.

- b. What amounts of liability/ workmans comp coverages are required?

GDOE Response: Please refer to Sample Agreement, page 11, Section XXIV (B).

All Star Business Systems

13. In reference to the BID SUBMISSION Deadline of Monday, January 24th , 2022, at 10:00 a.m.

- a. a. Request: Due to the magnitude and complexity of IFB 005-2022 (140+ machines of various specifications and locations), Guam Copier is officially requesting an extension of the bid deadline to accommodate thorough communications with the distributor, detailed review of GDOE's specific needs by location, and adequate time of securing the absolute best solution and price for GDOE. The Immensity of this Bid deserves additional time to find all cost-saving measures for GDOE. Unlike other departments throughout the Government of Guam, IFB 005-2002's total lease price is realistically in the \$4,000,000+ range, warranting additional time to present GDOE with the best proposal.
- b. As alluded in the Project Description:
- i. GDOE would like to reduce reliance on hardcopy documents
 - ii. Make use of economies of scale to drive the best price.
 - iii. Provide a system that would help GDOE improve the document management process, reduce reliance on paper, contribute to a "greener" department
 - iv. Identify cost savings opportunities in the schools.

GDOE Response: Please see above amendment to submission deadline.

14. In reference to the 2.3.3. – Print/Copy Allowance – 9,000,000 Black / 750,000 Color copies/print per quarter

- a. Question: Please confirm the estimated B&W & Color figures per location and machine. Due to the variance in toner cost figures per machine, a Volume by Department/Machine Report is necessary for accurate cost estimation (i.e., Configuration 1 and 2 have a higher toner capacity due to their size and maximum output. By nature, this will have their printing costs significantly lower than the smaller machines in Configuration 3, 4 & 5). The current vendor automatically has these figures as part of the accounting/reporting history throughout the present contract. With toner costs being an essential aspect of correctly calculating the costs associated with a submitted bid, these figures are imperative that these figures are made available to all prospective bidders participating in IFB 005-2022
- b. We request a copy of the previous five years of Print numbers by machine/site. Considering the drastic operational changes in the years pre-covid, during the onset of the pandemic, after the reopening of school, and as we progressed to date.

GDOE Response: Please see Amendment 3, Attachment D – Print Volume Per Year.

15. In reference to the 2.3.3. – Print/Copy Allowance – 9,000,000 Black / 750,000 Color copies/print per quarter

- a. Request: Guam Copier strongly recommends GDOE consider the cost-savings measure of a Price-Per-Print instead of the set Print/Copy Allowance. Through our assessment with multiple agencies and corporations on the island, end-users save unnecessary spending on months they do not reach their "Allowance" limit. Additionally, our island has experienced continuous changes in operation and learning demands due to the ongoing pandemic.
- i. Example: During the initial lockdown, Holiday breaks, and Summer – our educational facilities usage numbers are naturally reduced, sometimes by half. Yet, due to the set allowances, GDOE accepts to pay for the total "Allowance." This is the opposite of a cost-savings measure and only benefits the copier provider, not the GDOE

- ii. The Disadvantage of a "Print Allowance" Pool is the end-user will pay for the Print allowance regardless of whether the numbers are met. This cost is built into the lease, not given as a convenience.
- iii. I.E., IFB 005-2022 calls for 9,000,000 for Black and 750,000 for Color – If GDOE only prints 5,000,000 Black and 500,000 Color, the Department will still have paid for the FULL "Print Allowance."
- iv. Furthermore, if the Department prints over the "Print Allowance," they will still have to pay the excess.
- v. Paying per Print is the best way for the end-user to avoid paying for prints never used.

GDOE Response: GDOE appreciates and notes the suggestion. Unfortunately, GDOE is not able to make this change without further thorough research for "Price per print." GDOE will make this consideration in future solicitations.

16. In reference to 2.3.9 – Full Service and Maintenance On-Site Device Support Including Parts and Labor

- a. Request: Guam Copier requests the previous 5 years of maintenance records. The current vendor automatically has these figures as part of the reporting history throughout the present contract. With maintenance labor and parts costs being an essential aspect of correctly calculating the costs associated with a submitted bid, these figures are imperative that these figures are made available to all prospective bidders participating in IFB 005-2022.

GDOE Response: Please see Amendment 3, Attachment E – Service Calls 2017-2019.

17. In reference to 2.3.9 – Full Service and Maintenance On-Site Device Support Including Parts and Labor

- a. Request: Guam Copier requests the previous five years of maintenance records. The current vendor automatically has these figures as part of the reporting history throughout the present contract. With maintenance labor and parts costs being an essential aspect of correctly calculating the costs associated with a submitted bid, these figures are imperative that these figures are made available to all prospective bidders participating in IFB 005-2022.

GDOE Response: Please refer to response to question no. 16 above.

18. In reference to 2.0 - Would GDOE like to incorporate Scanning and Grading capabilities that would allow teachers to scan bubble sheets and one answer key to automatically correct and grade responses in class as part of this MFD solicitation?

- a. Would GDOE like to reduce operating costs while improving workflow and raising the level of student testing and grading as part of this solicitation?

GDOE Response: GDOE does not understand and is confused with this question. Please note that GDOE is not requesting for Scanning and Grading capabilities in this IFB.

19. In reference to 2.3.16.1 - Can GDOE provide the following details of your network infrastructure

- a. How many school campuses are in GDOE?

GDOE Response: 42 schools.

- b. Is there a Server at each school to support Device Management and Reporting Solutions?

- i. If so, what is the Network Operating System?

- ii. Cloud Infrastructure?

- iii. Workstation O.S.?

- iv. Do Users authenticate to a Cloud Network or a Local LDAP Server?

GDOE Response: No server at each school.

20. In reference to 2.3.16.11 - Is GDOE going to make the devices accessible to Students or Just for Faculty Usage?

GDOE Response: Generally, it is for faculty usage.

- a. Will GDOE require walk-up charge stations for Students?

GDOE Response: No.

- b. Will GDOE require Vending equipment for Library devices? If so, please describe how student usage would be charged; coin-based, charge card, etc....

GDOE Response: No.

- c. If Tracking Student Usage, will students have an entry in LDAP?

GDOE Response: This depends on the solution proposed. If needed, students can have an entry in LDAP.

- d. How many schools will require Device Management and Reporting?

GDOE Response: All schools.

- e. Does GDOE require one Centralized Device Accounting Server with remote authentication servers, or will GDOE opt for Individual Device Management and Accounting Servers in a decentralized configuration for a reduced cost at each school?

GDOE Response: Please refer to Section 2.3.16.11.1 and Section 2.3.17 for more information. Proposals should meet these minimum specifications.

- 21. In reference to 2.3.16.14 - MFD 1 GDOE specified Monochrome/Black Copier in section 2.3.16.14.1, can GDOE clarify if section 2.3.16.14.2 is asking for a 105 PPM minimum "Color" capable Scanning requirement for this same category MFD?

GDOE Response: Update, GDOE is requesting for Color. GDOE is NOT requesting for a MonoChrome/Black only copier.

- a. What is the Monthly Print Volume for MFD 1?

GDOE Response: Please see Amendment 3, Attachment F – D110 Print Volume 2021.

- b. What is the minimum speed for this category?

GDOE Response: Please refer to Section 2.3.16.14.2 of the IFB.

- 22. In reference to ALL MFD's in this bid:

- a. Are these devices in a centralized reprographic center (CRD)?

GDOE Response: No.

- b. Do these devices require a Fiery Controller?

GDOE Response: Fiery controller is not a requirement.

- c. Are faculty submitting batch jobs remotely for large quantity printing?

GDOE Response: No.

- d. Is there current software that GDOE is currently using for Job ticketing and submission?

GDOE Response: No software exists for job ticketing and submission.

- e. Will GDOE retain such software?

GDOE Response: No software exists for job ticketing and submission.

- f. Does new software need to be included?

GDOE Response: GDOE is not asking for software but a complete solution. Please refer to Section 2.3.17.

- g. Will GDOE require adequate power protection for each machine? We noticed no power protection was used during our site visit.

GDOE Response: Please refer to Section 2.3.16.2. GDOE will NOT be responsible for any issues caused by Power anomalies – such as power surges or brownouts.

All else remains the same.

Sincerely,

CARMEN T. CHARFAUROS
Supply Management Administrator
