National School Lunch Program (NSLP), School Breakfast Program (SBP), Child and Adult Care Food Program (CACFP)
On-site Observation

The Food and Nutrition Services Management Division (FNSMD) team began the on-site reviews on August 7, 2025, and has completed reviews for all **39 schools** participating in the NSLP as of October 24, 2025. This includes reviews for 24 elementary schools, 8 middle schools, and 7 high schools.

> *[7 CFR 210.8(a)(1)] - Every school year, each school food authority with more than one school shall perform no less than one on-site review of the counting and claiming system and the readily observable general areas of review cited under § 210.18(h), as prescribed by USDA FNS for each school under its jurisdiction. The on-site review shall take place prior to February 1 of each school year.*

Moreover, the FNS team conducted on-site reviews of the School Breakfast Program (SBP) at 39 schools, achieving a completion rate of 100% as of October 8, 2025.

> *[7 CFR 220.11(d)(1)] - Every school year, each school food authority with more than one school shall perform no less than one on-site review of the breakfast counting and claiming system and the readily observable general areas of review identified under § 210.18(h) of this chapter, as specified by USDA FNS, for a minimum of 50 percent of schools under its jurisdiction with every school within the jurisdiction being reviewed at least once every two years. The on-site review shall take place prior to February 1 of each school year.*

The Food and Nutrition Services (FNS) team has completed the first-round on-site reviews for all 27 Head Start Centers as of November 6, 2025. The second-round on-site reviews will be done in the first quarter of 2026.

> *[7 CFR 226.16(d)(4)(iii)] Frequency and type of required facility reviews. Sponsoring organizations must review each facility three times each year, except as described in paragraph (d)(4)(iv) of this section*
>
> *[paragraph (d)(4)(iv)] Averaging of required reviews. If a sponsoring organization conducts one unannounced review of a facility in a year and finds no serious deficiencies (as described in paragraph (l)(2) of this section, regardless of the type of facility), the sponsoring organization may choose not to conduct a third review of the facility that year, and may make its second review announced, provided that the sponsoring organization conducts an average of three reviews of all of its facilities that year, and that it conducts an average of two unannounced reviews of all of its facilities that year. When the sponsoring organization uses this averaging provision, and a specific facility receives two reviews in one review year, its first review in the next review year must occur no more than nine months after the previous review.*

During these reviews, the FNS team evaluated meal quality, nutritional standards, and food safety practices to ensure that each school provides healthy and balanced meals for students.
