The Troubleshooting Listing provides DPHSS the data of the students verified for eligibility to receive the SEBT Benefits, that were not originally transmitted for processing due to various reasons (transferred or started mid-school year, summer school, incorrect demographic data, etc.). DPHSS intends to continue rounds of distribution as the Benefits are set to expire in November 2026.

CAFETERIA INSPECTIONS AND RECOMMENDATIONS

The report provides an overview of the inspections conducted in GDOE cafeterias. It details findings related to equipment deficiencies, maintenance issues, and necessary upgrades that are essential for achieving optimal operational standards and ensuring compliance with health regulations.

Key Areas of Focus:

- **Broken Equipment:** Identification and assessment of malfunctioning or broken equipment impacting daily operations and food service efficiency.
- **Equipment Needs:** Analysis of essential equipment requirements to enhance food preparation, storage, and overall cafeteria functionality.
- **Infrastructure Issues:** Identification and assessment of areas of damage to the building itself, to include doorways, windows, and other structural areas.

NOTE: As of September 30, 2026, internal inspections of all GDOE Kitchen and Cafeterias have been completed by the FNSMD Operations Team. Technical assistance has been provided to both School Administrators and the FSMC for immediate correction of any issues that may compromise food sanitation and student safety. As of September 14, 2026, the Environmental Protection Agency (EPA) and Guam Waterworks Authority (GWA) completed grease trap inspections at all school sites. A key finding is that exterior grease traps must be repaired and maintained in accordance with applicable requirements. GWA requirements do not allow existing exterior grease traps to be abandoned.

Recommendations

- **Immediate Repairs:** Prioritization of urgent repairs to resolve existing equipment issues and guarantee uninterrupted cafeteria services. School Administration has been advised to submit work orders for Facilities & Maintenance to Address. The FSMC is addressing issues as per their contract responsibilities.
- **Long-Term Upgrades:** In Collaboration with the Guam Head Start Program, federal grant monies were received to upgrade and install air curtains and sculleries in several school cafeterias that service the Guam Head Start CACFP program. All equipment will be implemented prior to the end of the SY.
